Artemis x DSEQ Reboot Campaign

Engage, Stake & Earn with Gate Wallet

We are thrilled to announce a new campaign in collaboration with Gate Wallet. This initiative is part of the Decentralized Sequencer Reboot Campaign in partnership with the Metis Ecosystem.

As part of our ongoing mission to reward our vibrant and growing community and to deepen the adoption of METIS staking, this campaign is designed with you in mind. Whether you're already an active member of our ecosystem or just getting started, there's something here for everyone.

By completing a few simple social tasks and staking METIS through a wallet created directly in Gate Wallet, you can earn a share of 1,000 oMETIS.

Let’s walk you through the full details of this campaign and how you can participate.

Campaign Overview

This campaign is centered around community engagement and METIS staking. We’ve made it as simple as possible for users to participate and earn rewards.

All you have to do is:

Complete the Following Tasks:

1. Follow Artemis on X (formerly Twitter)
   → https://x.com/Artemisfinance

2. Join the Artemis Telegram Group
   → https://t.me/OfficialArtemisFinance

3. Stake METIS using a wallet that was created directly in Gate Wallet
   You have two staking options to choose from:

   - Option A: Stake at least 0.2 METIS for a minimum of 14 days

   - Option B: Stake at least 1 METIS for a minimum of 14 days

Important Eligibility Requirements:

- Only wallets created within the Gate Wallet app will qualify for the campaign.

- If you import an external wallet into Gate Wallet, it will not be eligible.

- Staking must last at least 14 days from the time you initiate it. Early withdrawals or shorter durations will disqualify your entry.

- Both social tasks (X and Telegram) are mandatory for all participants.

Rewards Structure

This campaign features a tiered rewards pool based on the amount of METIS you stake. Here's what you can earn:

Tier 1 — Stake 0.2 METIS

- Users who stake at least 0.2 METIS for 14 days and complete the social tasks
  → Share in a reward pool of 100 oMETIS

Tier 2 — Stake 1 METIS

- Users who stake at least 1 METIS for 14 days and complete the social tasks
  → Share in a reward pool of 900 oMETIS

The total prize pool for the campaign is 1,000 oMETIS.

The more METIS you stake, the larger the reward pool you get to tap into. This system is designed to reward deeper commitment and longer-term support for the Artemis ecosystem.

Rewards will be distributed after the 14-day staking period has been verified.

Why This Campaign Matters

At Artemis, we strongly believe in rewarding loyalty and active participation. This campaign is another step toward building a thriving, self-sustaining ecosystem where users are not just spectators, they're contributors and beneficiaries.

Whether you're staking for the first time or you've been riding with us since day one, your involvement helps drive the growth and resilience of the Artemis ecosystem.

How to Get Started

1. Download and set up Gate Wallet (create a new wallet inside the app)

2. Follow Artemis on X: https://x.com/Artemisfinance

3. Join our Telegram group: https://t.me/OfficialArtemisFinance

4. Stake METIS (choose 0.2 or 1 METIS and lock it in for 14 days)

5. Stay active, stay engaged, and earn

We're focused on building with our community and rewarding those who stay committed.

The future of staking is here. Let's unlock it together.
